INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1952 edition of the Bay City Directory, which also includes Essexville.

Confidence in the growth of Bay City's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Bay City to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Bay City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments (Each department beginning with Page 1)

The five major departments are arranged in the following order:—

I. THE MISCELLANEOUS DEPARTMENT, the first major department, printed on white paper, presents lists of city, county, township and federal officials; post office, public school and court Directories; statistical review; and manufacturing, trade and civic surveys.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Bay City and Essexville, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the third major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

IV. THE BUYERS' GUIDE, the fourth major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Bay City and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Bay City, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

V. THE CLASSIFIED BUSINESS DIRECTORY is the fifth major department, printed on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisement of Bay City and Essexville.

The Bay City Directory Library

Through the courtesy of the publishers of the Bay City Directory, a Directory Library is maintained in the offices of the Bay City Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory

HOYT

JAN 28 1964

Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

BAY CITY

"WHERE THE SUMMER TRAILS BEGIN"

(Courtesy Bay City Chamber of Commerce)

Statistical Review

Form of Government—Commission-manager.

Population—1950 U. S. Census, 52,523; local estimate at present, 55,000. Predominating nationalities of foreign-born residents: Polish, German and French.

Area—10.5 square miles.

Altitude—604 feet above sea level.

Climate—Mean annual temperature, 47.8 degrees F.; average annual rainfall, 28.8 inches.

Parks—10, with total of 41.2 acres, valued at \$261,705.

Assessed Valuation—\$70,435,880, with \$39.58 per \$1,000 tax rate.

Bonded Debt—\$96,000 (general obligation).

Financial Data—2 banks and 1 trust company, with total deposits of \$58,773,764 (June 30, 1952), and total resources of \$79,311,053 (June 30, 1952). 1 savings and loan association, with assets of \$9,628,799 (June 30, 1952).

Telephones in Service—24,636.

Churches—64, representing 27 denominations.

Industry—Chief industries of city and surrounding territory: Manufacturing, fishing and agriculture. 100 manufacturing establishments, employing 11,000 men. Principal manufactured products: Automobile accessories and parts, steel ships, sugar, cranes, transformers, welding machines; iron, steel and magnesium castings; pre-cut houses, cement, powered shovels, and knit goods.

Trade Area—Extends 60 miles east, 40 miles west and 220 miles north.

Newspapers—1 daily and Sunday and 1 weekly.

Radio Stations—WBCM, WBCM-FM and WGRO.

Hotels—8, with total of 450 rooms.

Railroads—4: New York Central, Chesapeake & Ohio, Grand Trunk Canadian National, and Detroit & Mackinac.

Bay County Building

Bus Lines—Balcer Bros. Motor Coach Co.

Highways—U. S. 23; State 15, 20, 25 and 47.

Airports—Municipal and Tri-City.

Amusements—Largest auditorium in city seats 1,200 persons. 10 moving-picture theatres, with total seating capacity of 7,582 persons. 1 legitimate theatre, with seating capacity of 930 persons. 2 golf courses.

Hospitals—4, with total of 474 beds.

Education—18 public schools, including 1 junior college and 2 senior high schools. 17 parochial schools. Number of pupils in public schools, 7,736; in parochial, 5,236. Number of teachers in public schools, 345; in parochial, 112.

Public Libraries—4, with total of 144,803 volumes.

City Statistics—Total street mileage, 170, with 130 miles paved. Miles of gas mains, 160; sewers, 200. Number of water meters, 15,407; light meters, 19,765; gas meters, 16,046. Capacity of water works, 20,000,000 gallons; daily average pumpage, 7,830,000 gallons; miles of mains, 191; value of plant, \$5,000,000. Fire department has 112 men, with 7 stations and 11 pieces of motor equipment. Value of fire department property, \$261,583. Police department has 81 men, with 1 station and 17 pieces of motor equipment.

General Review

Modern Bay City, with a population of 55,000, and a former international reputation in lumbering, is a prominent spoke in the industrial wheel of Michigan. The city has all the basic features of a manufacturing center, with none of the customary drawbacks. Here industry is diversified. Brooms and locomotive cranes; potato chips and automobile parts, steel ships and silk stockings, magnesium castings and peanut butter, cigars and electric welding machines, power shovels and pre-cut houses are only a few of the things manufactured.

Transportation facilities embrace four railroads—the Michigan Central, Chesapeake & Ohio, Grand Trunk and Detroit & Mackinac; several major trucking lines; commercial air service; and Saginaw River harbor, on Saginaw Bay, an arm of Lake Huron, is a regular port of call for the largest freighters on the Great Lakes. Bay City, with Saginaw and Midland, owns and operates a super airport equidistant from the three cities at Freeland.

Bay City's background is rich and picturesque. This was once the camping ground of the Chippewa Indians, part of Saginaw Valley, then nestled in the midst of a fruitful pine land. The cutting of these forests formed an industry of immense proportions for those times and earned for Bay City the title "Lumber Queen of the World." Many colorful chapters of dynamic events in the history of logging in Michigan were written in and around early Bay City. When lumbering was at its height, more than 40 sawmills were located on the river banks. Now all but one have gone, to be replaced by modern manufacturing plants.

Bay City is the governmental seat of Bay County, a highly productive agricultural area that features, among other things, sugar beets. The sugar beet refinery here is the largest east of the Mississippi. Beans, corn, oats, rye and wheat also are feature crops.

The growing of extra fine melons, tomatoes and other produce makes this the gardening spot of Michigan, and an important source of supply for many of the larger cities of the Middle West.

Many excellent retail stores, together with several large, well-stocked wholesale and jobbing firms, make Bay City the trading center of northeastern Michigan.

Bay City is not a town of portable citizens, sometimes called "floaters." It is a city of thrifty home-owners (approximately 80 per cent) who take justifiable pride in building their community into a more pleasant and profitable place to live.

Bay City is the portal of the famed tourist playground of northern Michigan—summer and winter. Hereabouts are the best boating, bathing, fishing, hunting and camping. The Michigan State Park on the bay shore, groomed to emphasize nature's work there, is second to none, and is popular with hundreds of thousands from all over the land. Colonies of cottages skirt the water's edge for miles up and down the shore.

With an area of 10.5 square miles, Bay City has the modern equipment of the modern city. Its \$5,000,000 filtration plant supplies drinking water "to the queen's taste." Its two public high schools and junior college are keystones of educational facilities that also include 17 parochial schools. Virtually all of Bay City's public elementary schools are being replaced with modern structures. Wide, well-lighted streets and boulevards that are generously shaded by great trees, are sources of convenience, comfort and pleasure which Bay City has not overlooked in its march of progress.

Through its Chamber of Commerce, with headquarters on the Wenonah Hotel mezzanine, Bay City is shaping its course toward steady, healthy, well-balanced progress and the worth-while dividends of diversified community development.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

R. L. Polk & Co.

CITY DIRECTORY USES

1. SALES PROMOTION:

a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b. Leads—

Determining proper official to approach for sales interview. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d. Building mailing lists and direct mail campaigns—

1. **List of local people (Neighborhood List)** within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. **Lists of business houses and the professions—**The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. **Vocational Lists—**Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.
Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. CREDIT:

a. Verifying customer's statements and information.

b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. DELIVERY AND SHIPPING:

a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.

POLK'S BAY CITY

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1952

INCLUDING ESSEXVILLE

Copyright, 1952, by R. L. Polk & Co.

Effective with this issue, the numerical streets will be found at the beginning of the Street Guide, preceding the named streets, in numerical order.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol • following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publishers cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The 4 preceding names denotes houses and places of business having telephones.

(The numerals that appear at right edge of columns, ahead of street descriptions and some intersections, are merely for the guidance of the publishers, and have no other significance)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

If you wish to know whether a man owns his home or has a telephone, refer to the Householders and Street Guide Section of your City Directory. The symbols shown above enable you to learn if the occupant owns the home and is a telephone subscriber.

Complete Financial Information . . .

**Published Semi-Annually
March and September**

POLK'S BANK DIRECTORY reports December 31 and June 30 status of the 14,700 banks operating throughout the United States. Each listing includes the statement, officers, directors, correspondents and other general data of banks.

Investment bankers are listed following the banks in each city. A separate section lists legal reserve Life Insurance Companies. Other sections list the latest available information on banks in other countries.

This twelve pound volume, with 2800 pages of accurate, up-to-date information is the recognized standard throughout the world for banking facts. It is easier to use than a dictionary. Price \$27.50 a copy, or \$20.00 an issue on term contract.

Directory Specialists since 1870

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS' GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED ★

Do your employers
 furnish you with the
 latest edition of the
 City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

"r" — RESIDENT

"h" — HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r", before an address stands for "Resident". That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

Soft water—that smooth, filtered kind of water that reduces your soap bill by 50% to 70%—can now be yours without buying a water softener! You see, we install our portable softening unit in your home. We own the equipment, and we take care of it. You don't even flick a switch—just turn your faucet for all the soft water you need. As with your gas or telephone, you pay a small monthly bill for the service—and that's all there is to it!
